	<p>and the on sale of securities bought, this process was often ineffective, inaccurate and costly for Issuers and Investors alike. The dematerialisation of securities in South Africa addressed several inefficiencies and risks, including the introduction of an electronic security register which provides Issuers with accurate and up-to-date information about their security holders. This process brings many advantages of efficiency and transparency to the Issuers.</p> <p>The Register Administration Fee is calculated using the number of trades executed on a particular Issuer's securities, as this directly affects the number of electronic book entries that must be made on the uncertificated register.</p> <p>In instances where the number of trades exceeds 10 000, a lower fee is applied.</p>
